EDEPENDENT FUNCTION FOR THE PAST. EMBRACING THE FUTURE.

F FUSION DESIGNS

EST. 1995

What began as a simple woodworking shop has grown into a trusted source of fine, quality-crafted furniture for every room in the home.

For 2022, we are excited to be able to offer new collections created in the heart of Amish country, most produced and all artfully finished right here in our shop under our strict attention to detail. It's our way of honoring our heritage while pursuing new heights in innovative designs for the future.

We invite you to experience Fusion Designs.

Joal Boutin

Noah Bontrager

THESE ARE PRINCIPLES THAT GUIDE US:

QUALITY Unsurpassed quality standards.

CRAFTSMANSHIP

A work ethic instilled by generations of skilled craftsmen.

INNOVATION

A dedication to honor the past and design for the future.

LIFETIME **GUARANTEE**

We don't make it complicated. If your properly cared for furniture fails during normal use in the lifetime of the original owner due to problems in either the workmanship or material, we'll repair or replace it for free.

We can do this because we are confident that what we build will last.

ABOUT US

OUR ROOTS

Furniture manufacturing has become such an important piece of the fabric of life among the Amish in northern Indiana that it's hard to remember how different things were less than two decades ago. In the early 1990s, woodworking was mostly a hobby among the Amish. It was something to dabble in after a day's work on the farm or at the RV factory.

One of the early pioneers was Noah Bontrager. Noah grew up and worked on a farm until he was eighteen. The family farm consisted of 120 acres and worked with draft horses pulling farm implements. Corn was husked by hand, manure was forked onto manure spreaders by hand, cows were milked by hand, and wheat and oats were put in shocks and put through a thrashing machine. To use a telephone meant walking or riding horseback a few miles to a payphone. After turning eighteen, Noah began work at an RV factory. At the age of 22, Noah began to build furniture as a hobby and learning the fine points of construction through trial and error. Having no formal training in woodworking, this was a period of time where valuable lessons were learned in building all types of furniture and cabinets. Factory life proved unfulfilling so in 1993, Noah committed to take on woodworking as an occupation and Fusion Designs was born.

MADE IN INDIANA

Fast forward to today, most employees are Amish and are neighbors or live close enough that they commute to work with either horse and buggy or bicycle. Many also have farms at home or chores they do after work. Fusion Designs is a family-owned operation and is not a typical corporation. Many questions have been asked regarding the Amish and what we represent or why we choose to live as we do. Amish is not a religion, rather a way of life we feel is patterned off of the teachings of Jesus Christ. We profess to be of the Christian faith and a follower of our Lord and Savior and to Him belongs all honor and glory.

THE FUSION DIFFERENCE

At Fusion Designs, we place our emphasis on attention to detail. We strive to bring out the natural beauty and character of each piece of wood. As a result, these one-of-a-kind pieces built with quality workmanship ensure many years of retained beauty and endurance that can be passed on from generation to generation.

Built in the USA

Fusion Designs is putting American people to work! All of our products are handcrafted in our workshop in Goshen, Indiana.

Quality Construction

We take pride in everything we build.

Customizable – Wood & Finish

Choose from 6 kinds of wood and 23 finish options.

Fully Cartoned

Our products are completely cartoned to help prevent damage and delivered to your doorstep.

Quick Lead Time

We work quickly, without sacrificing quality with every order we receive. Therefore, we have a 6-7 week production times for all custom orders.

Quickship Programs

We understand that your showroom or a customer may need products sooner than our standard 6-7 week production time, therefore, we stock our topselling products and ship in 10 days.

Dealer Protection

We protect our dealers and give them a radius against competitors.

Great Customer Service

Contact us directly anytime during working hours and we will answer any questions you may have.

Lifetime Warranty

You will need to register with us as the original owner of Fusion Design furniture. See page 205 for details.

Responsibility & Sustainability

Fusion Designs works hard to lower our carbon footprint by employing a variety of responsible practices.

 George Nakashima (Master woodworker and renowned leader in 20th century furniture design)

THE NATURE OF WOOD AND ITS ENVIRONMENT

Hardwood forests cover more than 269 million acres in the United States. Although it takes about 80 years for a tree to mature, natural reseeding and sprouting contribute to the regeneration of our forests. Conscientious caretakers are also responsible for the ongoing rebirth of this country's hardwood resource thanks to the use of a practice known as sustained yield forest management. Thanks to this practice, the United States grows twice as much hardwood as it harvests every year. In fact, current projections show that by the year 2040, the U.S. will have about 70% more hardwoods available for harvest.

Conservation has long been a byword for the wood industry, both in the forest and in manufacturing. Lumber mills use approximately 98% of the entire tree harvested. Thanks to the introduction of laser-guided saws, improved quality control and computer-assisted manufacturing, virtually nothing is wasted. The bark, which can constitute up to 20% of a log, often fuels the mill. Bark also is used to produce mulches and soil conditioners, while trimmings are processed into a variety of wood products, including paper.

Our trees are an ever-renewing gift from nature. A vibrant hardwood forest is a dynamic force, contributing to a clean, healthy environment. Forests cool the atmosphere and filter the water we drink. They convert carbon dioxide into oxygen to give us air to breathe. They provide food and shelter for wildlife and offer a spectacular variety of recreational opportunities. Each Autumn, their green leaves burst into brilliant symphonies of amber, orange, magenta, and thousands of hues in between.

U.S. hardwoods are coveted all over the world for their warmth and lasting beauty in furniture, cabinetry, mill work, and flooring. In finished products, hardwoods are the purest expression of nature. They are not synthetic, nor are they engineered. Their beauty is not just skin deep.

HARDWOODS

Hardwoods include broad-leafed trees like oak, walnut, cherry, maple, hickory, and dozens of other species. Mature hardwoods supply the nation, and much of the world, with timber used for everything from railroad ties to quality furnishings.

Just as each tree is different from the next, so, too, are hardwood products individually unique. Hardwoods are characterized by an infinite variety of grains and distinctive textures. Trees grow limbs that fall off as the tree matures. What remains is a knot on the hardwood surface. These natural markings add character to the wood's appearance and have absolutely no effect on the wood's durability and stability.

At Fusion Designs, we strive to bring out the natural beauty and character of each piece of wood. These characteristics give each piece its unique charm. As a result, even though the finishing processes are identical, no two pieces will ever be exactly the same. Embrace the uniqueness of your hardwood furniture. It's what nature intended.

REFORESTATION INITIATIVE

We are proud to be partnering with Onetreeplanted.org, a non-profit organization with a focus on restoring the world's forests by planting one tree at a time. We partner by giving a portion of every order towards planting trees all over the world. Through this organization, it takes only \$1 to plant a tree! Go to onetreeplanted.org to learn more.

PLACING YOUR ORDER

4 EASY STEPS TO CREATE YOUR ORDER

Ordering your custom products can be done in 4 easy steps. Below we have provided our template of how to order Dining products in these 4 steps. Dining and Case Good order forms as well as additional product information can be found at www.fusiondesign.us.

> Simplicity Arm Chair (with Inlays, not shown) #51-9065ACW

Simplicity Arm Chair (without Inlays, not shown) #51-9065AWNI

Drawing from the streamlined looks and clean lines of mid-century modern design and the pared-down aesthetic of Scandinavian spaces, the Simplicity Collection is a contemporary interpretation of Shaker style re-imagined for today's more modern tastes. Smallerscaled with an emphasis on flexibility, the collection is marked by angular posts and pilasters and functional open shelving that offers the fresh and airy feeling indicative of these serene, light-filled styles. Finished in a mellow Brown Maple stain coupled with tapered walnut bases, legs and contrasting walnut accents, these multifunctional dining room pieces easily move from one room to another depending on decorating needs.

Why, you ask, do we make our beautiful hutches, buffets, and sideboards in the time-honored tradition of handcrafted furniture- building?

OPTIONS

C

BECAUSE YOU WOULDN'T WANT IT ANY OTHER WAY.

We are true craftsmen, dedicated to building and finishing every piece of furniture by hand, one piece at a time. Because you wouldn't expect any less from Fusion Designs.

We are true craftsmen, building and finishing every piece of furniture by hand ONE PIECE AT A TIME.

That's Fusion Designs.

COLLECTIONS

Imagine the compliments you'll get when your guests' eyes are drawn to your classically modern occasional table from Fusion Designs.

HONORING THE PAST DESIGNED FOR THE FUTURE.

Many furniture makers follow traditional designs primarily in the Mission or Arts and Crafts style. While we adhere to quality craftsmanship and attention to detail, our designs are innovative and imaginative.

Inspired by the traditions of Mission style, the clean, vertical lines and flat planes of the timeless Bungalow Collection are crafted from red, quarter-sawn oak, with a finish that uses the natural grain of the wood as a decorative element. Highlights include cedar drawer boxes with English dovetail construction, handsome hardware in a rustic finish, and a spindle bed and nightstand that impart a light and airy look crafted to last for generations. Coordinating upholstered furniture is also available.

SIMPLICITY Bedroom Collection

COLLECTION FEATURES

- Mirrors have bevel cut edges
- Constructed with mortise and tenon joints
- Dovetailed, solid wood drawers
- Soft-closing, full extension, undermount drawer guides
- Cutout in drawer fronts for handles
- Top has grooves

*Simplicity cannot have sliding top option, nightlights, or docking stations

COLLECTION OPTIONS

- Low footboard option
- Distressed finish (#2D)
- Underbed storage options
 Choose any fabric or leather
- from the Fusion options

Walnut Inlays and bases on select case goods are standard

Drawing from the streamlined looks and clean lines of mid-century modern design and pared-down aesthetic of Scandinavian spaces, the Simplicity collection is a contemporary interpretation of Shaker style re-imagined for today's more modern tastes. Smaller-scaled with an emphasis on flexibility, the collection is marked by angular posts and pilasters and functional open shelving that offers the fresh and airy feeling indicative of these serene, light-filled styles. Finished in a mellow brown maple stain coupled with tapered walnut bases, legs, and contrasting walnut bow tie accents, these multi-functional bedroom pieces easily move from one room to another depending on decorating needs.

DINING FEATURES & OPTIONS

TRESTLE TABLE SELF-STORING FEATURES

TABLE TOP STANDARD FEATURES

12" Table leaves can be stored inside the table to save valuable time and space.

Dining table legs are connected by a reinforced V-grooved corner block with 2 bolts.

1" solid wood table tops are fitted with steam-bent skirts.

Mortise and tenon construction adds strength to each piece.

Each dining table is number-branded and signed by the craftsman who created your individual piece.

Each dining table's unique leaves receive that table's serial number and numerical label for installation.

PREMIUM SLIDE SYSTEM UPGRADE

These slides are second to none and well worth the upgrade! Slides will not warp or bind over time and will work as good in 40 years as the day they were installed. *BBS slides are not available on round tables with butterfly style leaves.

BUTTERFLY LEAF DETAILS

INLAY OPTION

Hayworth Inlay can be added to any top. Option includes 1 inlay at each end of table (2 inlays).

CENTER LEG GUIDELINES

36"& 42" Wide Rules: When adding 32" - 84" in leaves, table receives 1 center leg. When adding 84" - 120" in leaves, table receives 2 doubles (4 legs). When adding 120" +, table receives 1 double and 2 singles (4 legs).

48" Wide Rules: 32"- 48" in leaves, table receives 1 center leg. When adding 48"- 84" in leaves, table receives 1 double (2 legs). When adding 84"- 120" in leaves, table receives 2 doubles (4 legs). When adding 120"+, table receives 1 double and 2 singles (4 legs).

Solid Top Rules: 84" and longer receive 1 center leg.

Butterfly leaf round tables cannot be built using aprons on leaves or have BBS slides. Round tops with butterfly leaves are also not available any smaller than 42" in diameter. Butterfly leaf tables are not available in custom sizes.

SELF STORING SPECIFICATIONS

All tables will be built to self-store and leaf skirt will be added accordingly. If tables cannot self-store (all round or square tables), skirt will be added to leaves as a standard feature. Leaf skirt can be requested for all leaves but must be specified at time of order placement and may void self-storing, see the following rules:

- Self-store is not available on round or square table tops unless using 1" butterfly leaves.
- 1 3/8" thick tops can only self-store 1 leaf without skirt.
- Trestle tables and double pedestal tables with 1" thick top can store as follows: 36" wide will store 2-12" leaves without skirt, 16" leaves cannot self-store with 36" wide table; 42" wide will store 4-12" leaves, 2 with skirt and 2 without or 2-16" leaves, 1 with apron and 1 without; 48" wide will store 4-12" leaves, all without skirt or 2-16" leaves without skirt; Any double pedestal or trestle table that is less than 72" long will only store 2 without skirt. Boat or Oval tops can only self-store 2 leaves, 1 with skirt and 1 without.
- Leg tables with 1" thick top can store as follows: 36" wide will store 2-12" leaves without skirt, 16" leaves cannot self-store with 36" wide table; 42" wide will store 4-12" leaves, 2 with skirt and 2 without or 2-16" leaves, 1 with skirt and 1 without; 48" wide will store 4-12" leaves, 2 with skirt and 2 without or 2-16" leaves, 1 with skirt and 1 without; Boat or Oval tops can only self-store 2 leaves, 1 with skirt and 1 without; 42"x60" and 42"x66" leg tables with BBS slides can only self-store 2-12" leaves, 1 with skirt and 1 without or 2-16" leaves 1 with skirt and 1 without.

Leaf and table locks can be added to tables and leaves in order to hold table together however tables will no longer be able to self-store leaves.

DINING FEATURES & OPTIONS

TABLE TOP SHAPES

Dining table tops are available in the sizes listed below. See bases for amount of leaves each size will accommodate.

CHARACTERISTICS OF SPECIAL TABLE TOPS

Plank Top

A plank-style top is created by randomly joining boards with bread-boarded ends and in varying widths from 2 to 13 inches. Depth of offset from board to board as much as ³/8" as well as the number of visible saw cuts will also vary from top to top. Due to the individual uniqueness of each plank top, widths, depth of offsets and saw mark patterns or locations cannot be specified when ordering.

Humidity will affect these types of tops more than a standard top with no breadboards. The breadboards and the boards on the table are moving opposite ways since the grain direction is not the same. This causes shifting of up to ¾", gapping and the tongue and groove area to sometimes be exposed. Correcting the humidity level in the room will help minimize shifting and gapping, but none of the inconsistencies found in plank-style tops or any top with bread-boarded ends are considered defects. They should, instead, be embraced as unique characteristics of each piece of furniture handcrafted in this manner.

Showing an **exposed groove** in breadboard

Showing an **exposed board** at breadboard joint

Example of edge with greater angle

Example of edge with little angle

Live-Edge Glue-Up Top

Live-edge glue-up tops are 13/8" thick with live edge pieces on each side and random staves glued in between to achieve the required width. Width is still approximate because of the variation of shapes of the edges. Width can vary by as much as 14"due to the random shapes of the trees from which these pieces are cut. The angle of the edge is determined by where within the log the board was extracted. A table edge without an angle would have been cut from the center of the log. If it has a sharper angle, it means the board was taken close to the outside of the log. One advantage that a glue-up top has compared to a bookmatch live edge slab is that glue-ups tend to be more stable resulting in less cracking and movement as well as lesser cost because of the thickness.

Example of shape without a lot of variation

SEATING FEATURES & OPTIONS

CHAIRS

CHAIR FEATURES

- Constructed with solid hardwoods
- Glued mortise and tenon joints
- Accurately leveled for stability
- Fabric and leather seats are hand selected for consistency

CHAIR OPTIONS

- Distressed finish (#2D)
- Two-tone finish (#2TN)
- Fabric and leather seats available
- Bar stools are available in 24" or 30" high
- Caswell gas desk chair base (#CGL)

Joined using both screws and glue

Corner block strengthens corners

Caswell Gas Lift Base #CGL

- When ordering, add desk chair base style # to end of arm chair # for
- correct item code - Only available on arm chairs

Solid wood chair backs and table aprons are steam bent during a process that takes days to complete. Once bent, these solid wood parts will last for many lifetimes.

Protective Stretcher Cover (#PC)

 Protective cover available in Black and Brushed Stainless. Covers are available on bar chairs only.

FABRICS

One Less Thing to Worry About!

Performance Fabrics are engineered for easy maintenance, comfort, and durability. Performance Fabrics are soft, durable, and stainresistant. These fabrics are available in a wide array of textures and vibrant colors. Breakthrough protection is woven into every fiber so it won't ever wear away.

Easy Clean:

Performance Fabrics are easy to clean, but are not self-cleaning. Most liquid spills will simply blot off the surface with a dry towel. And for more difficult stains, just follow these simple spot-cleaning instructions:

- Wipe away excess mess using a clean, dry towel
- Mix a simple soap and water solution $\!\!\!\!^*$
- Apply and agitate with a soft-bristle brush
- Blot with a clean towel
- $-\ensuremath{\mathsf{Rinse}}$ thoroughly, repeat if necessary

*We recommend mixing 1 tsp. enzyme laundry detergent, like Tide® or Cheer®, with 2 cups warm water. And remember, soap attracts dirt, so rinse thoroughly.

LEATHERS

Descriptions:

- Premium top-grain glove-soft leather, offers exceptionally soft, silky, hand feel
- Soft silk hard enhanced with the application of a wax touch agent.
- A slightly contrasting crust color is randomly top-sprayed with a translucent solution of highly dispersed micro-pigments to give this leather gentle clouding or smoke effect.
- The natural glow and depth created enhances the sophisticated appearance of this leather.

Thickness:

– 0.9 – 1.0 mm thick

Natural Visibility:

- Some natural marking visible

Finish:

- Top-grain, aniline drum-dyed, micro-pigmented topcoat.
- Moderate protection from application of micro-pigmented topcoat.
- The beauty of aniline drum-dyed leather is the lack of uniformity. The dye does not color all sections of the hide uniformly due to the tissue (or cell) structure.
- The neck may be a bit lighter or darker than the butt; the rib and fat wrinkles may be outlined in a slightly darker cast.

Care & Cleaning:

Vacuum or dust with a soft brush regularly.

For Spots and Spills:

- Gently blot excess liquid with a clean absorbent cloth
- Let air dry naturally
- For Butter, Oil, or Grease:
- Absorb excess with a clean, dry cloth
- Leave alone
- Spots should dissipate over a moderate time

Do not apply any shoe polish, ammonia water, oils, or any other chemical solutions.

Recommended: Car and Cleaning kits such as those provided by Leather Master. The natural oils are sealed in for permanent and carefree beauty.

Any fabrics or leathers not in the current book will be treated as COM and must be sent to Fusion.

MEDIA FEATURES & OPTIONS

Optional drawer instead of sound bar opening (#OD)

Optional flip-down glass or wood drawer front for sound bar opening (#OGD)

easy access for installation

Solid wood is used throughout our construction process including case goods and beds however there are times when the design or construction of the item requires us to use some MDF core plywood in order to prevent shrinking or expanding that could be detrimental to the integrity of the piece. There are many different types of plywood cores including veneer core, MDF core and Partical board however all of these are considered plywood which means a veneered piece of wood over a substrate. The reason MDF core is used in a lot of the furniture industry including kitchen cabinets is that it is considered the premier "plywood" to use due to it having a more consistent flat surface. Veneer core can have a "rippling" effect because it is softer in some spots than others making a smooth surface difficult to achieve. Also veneer core plywood will still have a tiny bit of movement where MDF core will not.

BEDROOM FEATURES & OPTIONS

Optional **footrail** instead of footboard is available on most beds.

Optional **LED night light** with touch switch (#LEDN)

Optional **underbed storage drawers.** Multiple storage rail configurations are available. See line drawings for details.

Optional **sliding top nightstand** with secret compartment, lock and 3-plug power strip (#STP)

Dovetail joinery is a time-honored technique that connects each board with interlocking pins and tails.

Optional **peg** for hanging clothes (#POR)

Cast metal brackets firmly hold bed slats in place providing solid support for every mattress size.

Most drawers are available with **cedar lining**.

Dressers and chests can be customized with **drawer dividers** and optional **feltlined jewelry tray**.

Fusion Designs uses **floating panel construction**. Rubber space balls are inserted into the frame so the wood panels can expand and contract without causing damage. **Soft-close undermount drawer glides** assure quiet operation of solid wood drawers.

2 plug, 2 USB **power port** available in all nightstand top drawers (#DKD).Removable tray keeps drawer organized and can be used as a portable work surface.

Solid wood is used throughout our construction process including case goods and beds however there are times when the design or construction of the item requires us to use some MDF core plywood in order to prevent shrinking or expanding that could be detrimental to the integrity of the piece. There are many different types of plywood cores including veneer core, MDF core and Particle board however all of these are considered plywood which means a veneered piece of wood over a substrate. The reason MDF core is used in a lot of the furniture industry including kitchen cabinets is that it is considered the premier "plywood" to use due to it having a more consistent flat surface. Veneer core can have a "rippling" effect because it is softer in some spots than others making a smooth surface difficult to achieve. Also veneer core plywood will still have a tiny bit of movement where MDF core will not.

CARING FOR YOUR FUSION DESIGNS FURNITURE

Your new furniture is a reflection of your good taste. It combines nature's best materials with our Amish craftsmanship. To assure that your investment becomes a treasured heirloom to withstand the test of time, take the same care in maintaining the beauty of your furniture as you took in selecting it.

PLACEMENT

Carefully consider where your new furniture is located in your home. Avoid setting it directly in front of radiators, heating vents, or woodburning stoves as dry air can cause wood to dry out and crack.

HUMIDITY

The ideal indoor humidity range for solid wood furniture is 35-45%. An uncontrolled environment causes expansion and contraction which leads to splitting of the grain pattern or joints and gapping where leaves fit into the table. These conditions should be appreciated as inherent characteristics of solid wood and should not be assumed to be a defect in materials or workmanship.

PROTECTION & CLEAN UP

Simply dust furniture often with a soft cloth taking care to follow the grain pattern. Periodically clean with a mild, non-alkaline soap and water using a soft cloth or sponge. Dry immediately with a soft cloth and lightly buff wood grain. Avoid nail polish remover, alcohol, or other solvents. A high-quality furniture polish may be used occasionally, but do not use polishes that contain silicones. Your retailer can recommend a polish or wax.

LEAF STORAGE

Store extra table leaves in or close to table to maintain consistent environmental conditions (not in a damp basement or dry attic).

By following these simple tips, you'll get many years of enjoyment from your new furniture and when you are ready to pass it on, the new owner's first word is sure to be, "Beautiful!"

You will need to register with us as the original owner of Fusion Designs furniture. Should the properly maintained furniture fail at any time during the ownership and lifetime of the original owner because of workmanship or materials defect, we will either repair or replace it upon our discretion. This warranty does not apply to damage due to normal use, misuse, neglect or abuse, exposure to extreme heat, cold or humidity or to damage done in transit. Customer is responsible for freight costs to and from the factory. Fusion Designs is not responsible for gapping or seasonal cracking on items after two years of age. One year warranty on all electronics. There is no warranty on custom items.

VOOD SPECIES & FINISHES

RED OAK

Red Oak has a pronounced open grain with an orange/ reddish hue with the sapwood being white to light brown. The stain absorbs into this open grain pattern becoming darker where the grain is close and lighter where the grain is more open.

DURABILITY

Very durable with good wear-resistance, with a 1290 rating on the Janka Hardness scale*. The grain pattern can help hide minor dents and wear.

BROWN MAPLE

Brown Maple has a smooth grain pattern and is characterized by the varying brown, tan, white, and cream streaks. It absorbs medium to dark stains well and its smooth surface is ideal for painted finishes.

DURABILITY

It is a softer hardwood so it is more prone to scratches and denting with heavy use. It has a rating of 950 on the Janka Hardness scale*

1/4 SAWN WHITE OAK

Quarter Sawn White Oak has a unique grain pattern which is achieved by cutting the wood at a 90 degree angle to the tree's growth rings which exhibits a tight grain with cooler white to sage tones. Quarter Sawn White Oak absorbs stains richly and evenly. DURABILITY

Very durable with good wear-resistance with a rating of 1360 on the Janka Hardness scale*. The grain pattern can help hide minor dents and wear.

CHERRY

Cherry has a softer, circular grain pattern with minimal knots and pits throughout and slight white, brown, and deep red color variations throughout the wood. Over time the wood will darken with exposure to light and heat. DURABILITY

Because it is softer

hardwood, it is more prone to denting with heavy use. It has a rating of 950 on the Janka Hardness scale*.

RUSTIC CHERRY

Rustic Cherry has a softer, circular grain pattern with knots and pits throughout and contrasting white. brown, and deep red color variations throughout the wood. Over time the wood will darken with exposure to light and heat.

DURABILITY

Because it is a softer hardwood, it is more prone to denting with heavy use. It has a rating of 950 on the Janka Hardness scale*.

RUSTIC HICKORY

Rustic Hickory has a predominant grain pattern with knots and burls and contrasting reddish, cream and dark brown colors. DURABILITY

It is the strongest wood type that we offer with a rating of 1820 on the Janka Hardness scale*. The grain pattern can help hide minor dents and wear.

*JANKA HARDNESS SCALE

This number helps determines how well a wood will withstand dents, dings, and wear. The higher the number the more durable the wood is.

FINISH COLORS *Walnut is a 30% upcharge from Cherry cost

#02 Oak	Michaels #32	Medium #33	Mocha #70	Toffee #99		

This cut differs from traditional cutting of oak as it is made parallel to the wood's age rings instead of across. This cut yields a board with amazing strength, much less likely to crack, check or warp than when it is flat sawn. White Oak produces a distinctive "stripping"which gives pieces a more antique look.

#04 Cherry	Asbury #30	Michaels	Autumn		Washington

Rustic Bourbon #74

wood, cherry tends to resist warping and checking. Cherry is often used in fine furniture and cabinetry and looks great on colors ranging from light to dark. Cherry wood is also known to have small mineral deposits or character marks, these are not considered a defect.

#05 Rustic Cherry

* No longer will be sent out as a sample, but will be available to order (color is the same as Cherry but it would have rustic knots)

#06 Rustic Hickory Natural Peanut #58 #53

Rustic Cherry has the same properties as cherry wood. The rustic refers to the character marks that are noticeable in this cut of wood which can include worm holes, pits, knots, open grain and multiple marks. Knot holes will be filled on tops and chair seats only.

Hickory is one of the heaviest and hardest woods available. It has a close grain without much figure. Hickory wood is often finished in lighter or natural. The rustic refers to the character marks that are noticeable in this cut of wood which can include worm holes, pits, knots, open grain and multiple marks. Knot holes will be filled on tops and chair seats only.

FINISHING OPTIONS

Distressed Option

Distressing can be added to create a worn or aged look to your furniture. Our distressing process is carefully created using hand tools such as handplanes, hammers and nails giving your furniture natural looking worm holes, dents, cracks and natural worn edges.

Matte Finish Option

Customize your color combination by going with a two tone finish. Chair seats, table tops and case good tops can be a different color than the rest of the item. making this piece unique!

Painted Color Option

Fusion Designs also has painted colors available to help accent that special piece. Although paints are durable, it is not recommended for use means it will reflect very little light and will lack highlights and gloss. on table tops.

FINISHING STANDARDS

Fusion Designs' modern finishing plant offers a wide variety of finishes including paint alternatives. Conversion varnish is applied to all surfaces to provide the best protection and durability. We us stains, sealers and lacquers with low VOC and HAPS to lessen the impact on the environment.

Fusion Designs uses a "secret" ingredient when mixing their varnish that results in the smooth, warm texture of the finished product. Our dealers have noted that if wearing a blindfold, they could pick out a Fusion Designs item from their floor just by the touch!

Although we try to match the colors shown here as close as possible to the actual woods and finishes, a color sample should be ordered to assure accuracy in colors. Finishes depicted here are paired with the wood & color combinations that are shown on samples. However, all woods shown can be paired with any of the listed colors even if not shown. We also recommend ordering a color sample if choosing a finish/wood combo that is not displayed on a sample.

Superior Stain Resistance

In independent testing with criteria similar to KCMA specifications, the finishes primarily used by Fusion Designs exhibited superior performance in resisting stains.

Chemical	Effect	
Water	No Effect	
Ethanol (50% in H ₂ O)	No Effect	
Coffee (black)	No Effect	
Vinegar	No Effect	
Lemon juice	No Effect	
Orange juice	No Effect	
Grape juice	No Effect	
Ketchup	No Effect	
Olive oil	No Effect	
Detergent solution	No Effect	
Mustard*	No Effect	
Soft drink	No Effect	
Whiskey	No Effect	
Shoe polish	Slight stain	
Ethyl alcohol (100%)	Slight softening	
lodine	Stain	
*Mustard test was 1 hour – all others were 24 hours		

Fusion Designs also offers a matte option that creates a dull, flat finish. This

DISPLAYS

The dining room design center and the bar chair display are available for qualifying retailers. Please ask your representative for details.

.

Fusion Designs Dining Room Display #1KD

Approximately: 24"w x 24"d x 80"h

The kiosk allows the customer to experiment with various wood stain colors, wood species, along with leg and hardware options. The swivel-leg design allows you to line up your leg choice with optional edge profiles.

Internet Policy

Dear Valued Customer,

It has come to our attention that Fusion Designs tables are being offered for sale on the internet at prices that we consider too low. This has caused a great deal of dissatisfaction among our customers, because of the inability to have a level playing field.

A key component of the success of Fusion Designs has been a quality presentation of our products and a corresponding sales approach that provides the consumer with all of the information necessary to make a truly informed purchase decision. We have always believed that an essential ingredient of our success is the personal interaction between well-trained sales personnel and the retail consumer.

An integral part of ensuring consumer satisfaction is prompt and responsible warranty service. If our tables are sold through the internet to locations remote from that of the actual dealer, the quality of such follow up service usually is inadequate and our image with the consumer could be damaged. It is the dealer's responsibility to take care of such warranty issues.

In light of all the factors stated above, it is our preference that our product is sold in a retail store. However, because of having responsible dealers who sell on the internet at fair prices, we feel we cannot ban internet sales.

Therefore, we will require our dealers who advertise our tables on the internet to have no less than a 100% markup on their finished table cost. This markup does not include freight costs, which need to be advertised as such. A CD is available with the required mark up cost. Failure to comply with this requirement risks termination of dealership.

Here are a few guidelines for advertising our product on the internet: You may not promote "free shipping." Shipping needs to be an added cost, in addition to our required selling price. You should not advertise that you have lower prices because you have no overhead costs. Any reports of an internet company directing customers to a retail store to see furniture, with the intention of buying via the internet because of price, will result in termination of dealership.

We are confident that you will join us in appreciating the long-term benefits of this policy, which is effective immediately.

Sincerely,

Fusion Designs

YOU'LL ADMIRE THE BEAUTY. YOU'LL APPRECIATE THE VALUE. YOU'LL LOVE THE LOOK!

Fusion Designs continues to grow and add to the unique diversity of styles we offer in order to satisfy the most discriminating of shoppers. We're all about the details, start to finish. By selecting only the finest woods and quality hardware, our woodcrafters utilize the best-proven construction techniques to create furniture that is as durable as it is beautiful. Each piece is individually crafted, not mass produced. Our desire is to provide you with the highest quality furniture at the best value. Construction features like these set us apart...compare the integrity, compare the details.
