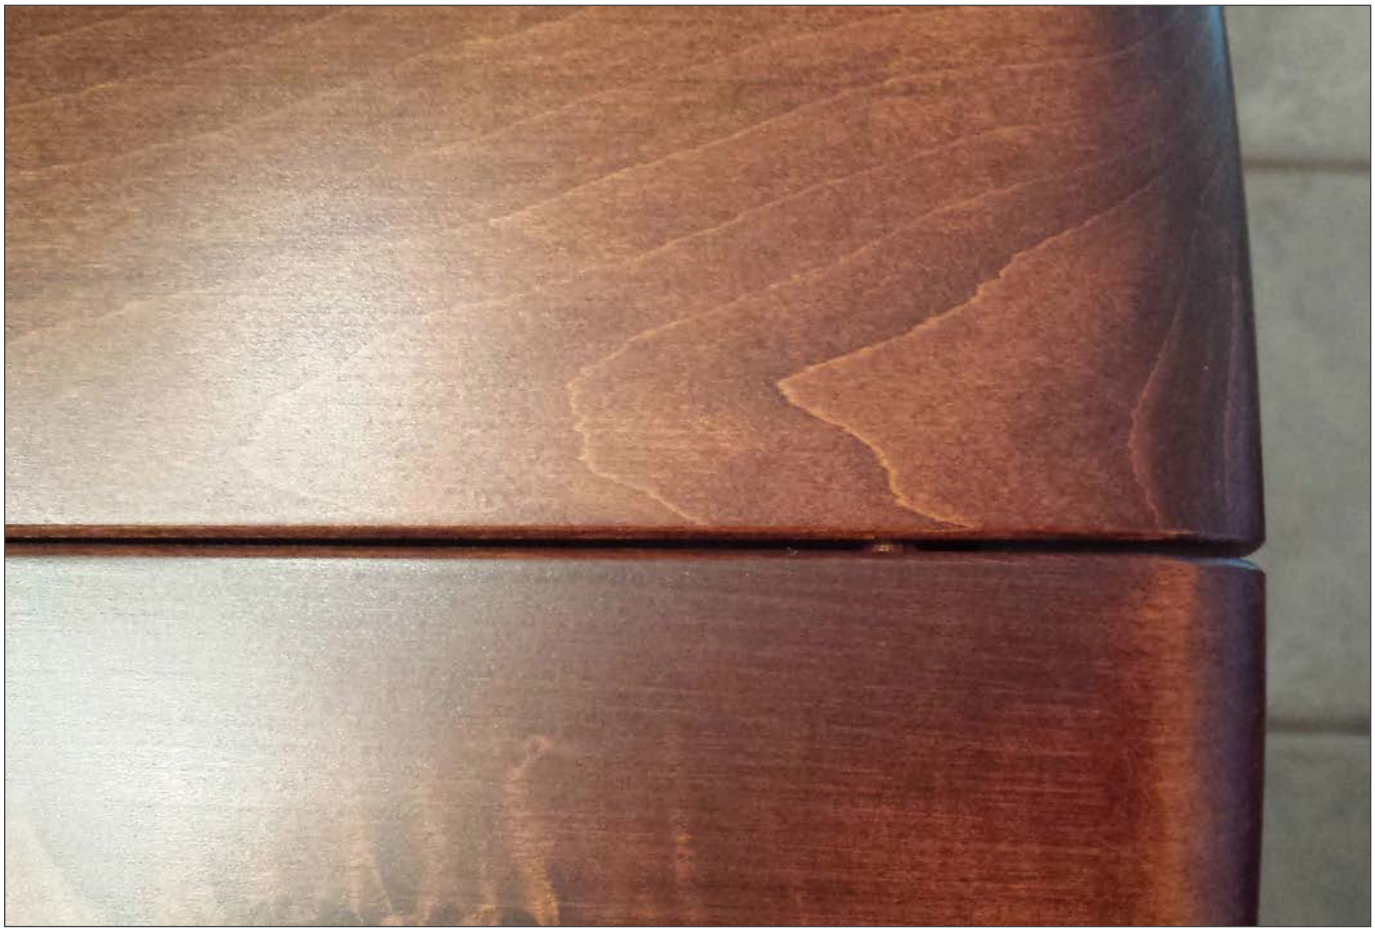
WOOD & HUMIDITY

The photos below are examples of what can happen to a table with humidity changes. This is not a defect, it is the result of natural movement in wood. Please see page 23 for more information regarding wood movement.



The photo above is the result of too low humidity, creating a gap at the ends of the joints. If the humidity is too high, the table will gap at the center of the joints.

THE NATURE OF WOOD

Wood is a product of nature and therefore acts in ways beyond human control. All hardwood has variation in its color and grain. These wood characteristics will put their own unique touch to each piece of solid wood furniture. Even though we go through the same building process, no two pieces will be exactly the same. Wood color can vary a lot depending on stain selection.

Most hardwoods are open grained, causing solid wood furniture to expand and contract with changes in temperature and humidity, even after protective finishes have been applied. These temperature changes may cause the wood to crack or have surface checks. This is not abnormal and these are not considered as flaws, but rather nature's "beauty marks" which make each piece manufactured at West Point Woodworking a truly unique piece of furniture.

Indoor humidity should be kept in the 35-40% range to minimize these effects. Solid wood should be kept away from direct sources of heating and cooling and should not be stored in attics or basements. Direct sunlight and fluorescent fixtures that contain ultraviolet rays can cause chemical changes in wood and finish and therefore should be avoided.

When cared for properly your solid wood furniture will become a piece of timeless beauty, one that will be treasured for generations.

ORDERING INFORMATION

To avoid delays in production and unnecessary phone calls, please provide the following information on all table orders.

1. QUANTITY
2. STYLE
3. SIZE
4. LEAVES: with skirts or without skirts
5. SHAPE OF TOP: if options are available
6. EDGE STYLE: if the shape of top or edge is not specified, we will proceed with the standard specs for that style
7. BASE STYLE: single pedestal, double pedestal, leg
8. FEET STYLE: if options are available
9. SELF STORE: if available
10. WOOD SPECIE
11. STAIN COLOR: if available at time of order
12. YOUR PURCHASE ORDER NUMBER
13. CUSTOMER NAME
14. YOUR FINISHER...so we know where to ship your tables!

Thank You!

WARRANTY POLICY

At West Point Woodworking we are pleased that you have chosen to invest in hardwood furniture. Our tables are built entirely out of hardwoods from the top to bottom. You will not find any particle board or veneers, with the exception of some parts of the cabinet base. We use some plywood in places where it would not be practical to use solid hardwoods due to expansion and contraction of solid wood. We offer a two year warranty on workmanship, materials, and construction methods. If a defect is found in the first two years of when the table was built, and the table has not been abused or improperly cared for, we will repair the table at no cost. If the table has been damaged due to improper care we can still repair the table and will do so at a reasonable fee (usually $60 or less depending on damage).

Always keep in mind that wood is a natural product and can expand or contract under certain humidity conditions. When the humidity is too high (above 50%) you may see some gaps between the leaves toward the center of the table. If the humidity level drops below 35% you may notice a little gap between the leaves towards the outer edge of the leaves. Most of the time this is nothing to be alarmed about and you may see the table go through this as the seasons change, especially if the house is not humidity controlled. If there is enough expansion or contraction in the table top to actually cause the wood to split, we will repair the table in the first two years unless it was improperly cared for. Finishing and shipping back and forth for repairs is not included in the warranty. If the table splits after two years from the manufacturing date, there will be a minimum charge of $35 to repair the table and send it to the finish shop. Finishing cost will have to be negotiated between the retail store and the finisher.

ATTENTION TO DETAILS

West Point Woodworking pays attention to special details. Quality and details are important to us. Quality standards are established to ensure trouble free service. Each table is made-to-order and our craftsmen will follow your specifications from start to finish.

Each table is assigned a serial number for tracking purposes should any questions or problems arise.

V-grooved corner block assembly and two bolt leg attachments are part of the quality construction of our tables.

Quarter Sawn is created by using a different sawing technique to expose the different grains in the wood bringing out the flakes that remind us of family heirlooms.

Self-storing tables are designed to conveniently store extra leaves. Quality gear slides are used to help you open your table easily.

Butterfly leaf table option. See pages 14 – 16 for available styles.

INFORMATION

INTERNET POLICY

We require a minimum markup on the **West Point Finished Wholesale price list**. Please see our pricelist for more details.

We firmly believe that the products we are building are far superior to many of the imports and other cheap lines of furniture that are on the market today, and by selling at too low price devalues this level of craftsmanship.

We are pleased that you have chosen to represent our 100% American made products and ask that you promote these products with confidence and truly believe in the product and sell it for what it is worth.

Steve Raber

CARE OF SOLID WOOD TABLES

If cared for properly your solid hardwood table can give you a lifetime of service and beauty. Here are several care tips that will enhance your solid hardwood table investment:

- Place your table away from radiators, fireplaces, and heating ducts.
- Position table out of direct sunlight or adjust blinds to avoid hour after hour of direct sunlight.
- Control humidity to 40%–45%. In winter use a humidifier, in summer use a dehumidifier or air conditioner.
- Use coasters with non-scratching bottoms.
- Use padding under all sharp, hot, or cold objects.
- Store table leaves in close proximity to table or in the same humidity, avoid storing leaves in damp basements where the leaves may swell.
- Avoid using nail polish remover, alcohol, and other solvents near or on table.

ROUTINE CLEANING AND CARE

DUST CAREFULLY with a soft cloth, following the grain pattern of the wood. Use an old T-shirt, baby diaper or cheesecloth that has been laundered to remove the sizing.

DUST OFTEN to remove everyday abrasive particles from wood surfaces.

CONSIDER CLEANING with a mild nonalkaline soap and water. Use the suds in a damp sponge or cloth, but be sure to pre-test the solution on an out-of-sight section to make sure it doesn't damage the finish. Dry immediately with a soft cloth and buff lightly, following the grain.

DON'T WAX or use any polish that contains any silicones! Catalyzed heat and moisture resistant finishes don't need additional polish, but if you want to use a polish we recommend Guardsman Furniture Polish.

REAL OR IMITATION?

Not sure if you're buying solid hardwood or a chip imitation? A check point is the glue joints. Put your finger on a glue joint and trace it along the top of the surface, over the edge, and to the underside. If the line disappears its probably an imitation. Solid hardwood joints on the other hand can be traced across the top, the side and the underside.

SELF STORE

Please refer to price list first to see if any specific self-store rules apply to that table style. If no additional info is listed, you may use this page as a general guide. Please note that custom sizes and changing the top shape can affect self-store capabilities. Tops must be 12" longer than width in order to self-store. In an effort to clear up some confusion that can go with self storing tables, we are providing a general list of table sizes, shape and styles where self storing works or does not work. Always keep in mind when you are selling a table and self storing is requested, there are two major factors in self storing:

1) pedestal or trestle base mounting plate size and spacing
2) the length of the table slide required to accommodate the amount of leaves needed for the table.

Here is one example of a very common size table that gets ordered self store, but it cannot self store four leaves: 42" x 66" OVAL, 4 leaves. Most people have a tendency to think that the three leaf version can self store all three of the leaves, so it shouldn't be a problem to store four leaves on a four leaf table, however this does not work because for a four leaf table, our slide is 12" longer than on a three leaf table, which forces us to move the slides closer together so they fit between the table skirts. Then there is not enough space between the slides to store more than two leaves.

GENERAL INFORMATION

TRESTLE TABLES WITH RECTANGLE OR BOW END TOPS

- 42" x 60" stores up to 4 leaves, ALL unskirted
- 42" x 66" and 42" x 72" stores up to 4 leaves, 2 with skirts, 2 without
- 48" x 60" stores up to 4 leaves, 2 with skirts, 2 without
- 48" x 66" and 48" x 72" stores up to 4 leaves, ALL unskirted

TRESTLE TABLES WITH BOAT SHAPE TOPS

- 42" x 60" – 1, 2, 3 and 4 leaf tables can only self store 2 leaves BOTH without skirts
- 42" x 66" and 42" x 72"–1, 2, 3 and 4 leaf tables can only self store 2 leaves, 1 with skirt, 1 without. If a 2, 3, or 4 leaf table is ordered with self store, the last leaf will be unskirted.
- 48" x 60" stores up to 4 leaves, 2 with skirt, 2 without
- 48" x 66" and 48" x 72" stores up to 4 leaves, ALL unskirted

DOUBLE PEDESTAL TABLES WITH RECTANGLE, BOW END, AND SQUARE ROUND TOPS

- Any 42" or 48" wide table can self store up to 4 leaves, 2 with skirt, 2 without.

***NOTE: SQUARE OR ROUND TABLES CANNOT SELF STORE ANY LEAVES!*

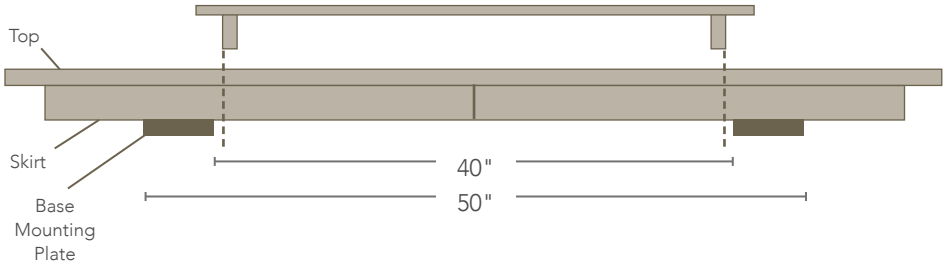
DOUBLE PEDESTAL TABLES WITH OVAL AND BANQUET TOPS

- 42" x 54" stores up to 2 leaves, 1 with skirt, 1 without
- 48" x 54"–48"w leaf does not fit inside of a 54" long oval top
- 42" x 60" – 1, 2 and 3 leaf oval tables store 2 leaves, 1 with skirt, 1 without
- 42" x 60" – 1, 2 and 3 leaf banquet tables store 2 skirted leaves
- 42" x 60" – 4 leaf table cannot store any leaves
- 42" x 66" – 1, 2 and 3 leaf tables store up to 3 leaves, 2 with skirts, 1 without
- 42" x 66" – 4 leaf table can store 2 leaves, 1 with skirt and 1 without.
- 42" x 72" – 1, 2 and 3 leaf tables store up to 3 leaves, 2 with skirts, 1 without
- 42" x 72" – 4 leaf oval table can only store 2 leaves, 1 with skirt, 1 without
- 42" x 72" – 4 leaf banquet table can store up to 4 leaves, 2 with skirts, 2 without
- 48" x 60" – 1, 2, and 3 leaf tables can only store 2 leaves, 1 with skirt, 1 without
- 48" x 60" – 4 leaf table cannot store any leaves
- 48" x 66" – 1, 2, and 3 leaf tables store up to 3 leaves, 2 with skirts, 1 without
- 48"x 66" – 4 leaf table can only store 2 leaves, 1 with skirt, 1 without
- 48" x 72" self stores up to 4 leaves, 2 with skirts, 2 without

SELF STORE

TRESTLE TABLES

42" Leaf (Skirts fit between plates)

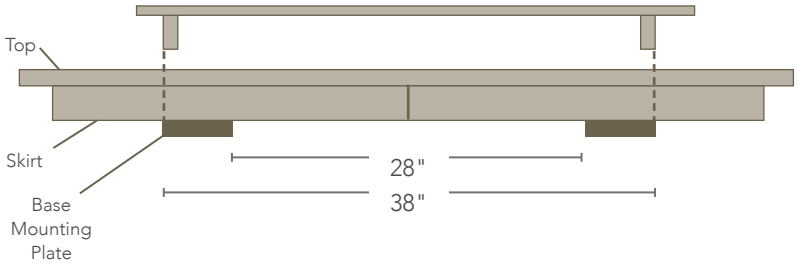


SIDE VIEW OF:

42" x 66" and 42" x 72" Trestle Table

- Can store up to 4 leaves, 2 with skirt, 2 without

42" Leaf (Skirts come on top of the plates)

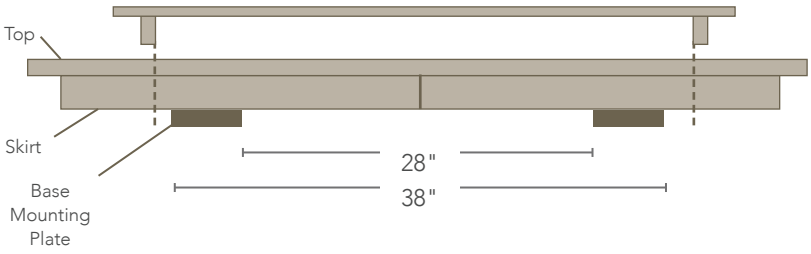


SIDE VIEW OF:

42" x 60" Trestle Table

- Can store up to 4 leaves, ALL unskirted

48" Leaf (Skirts go on the outside of the plates)

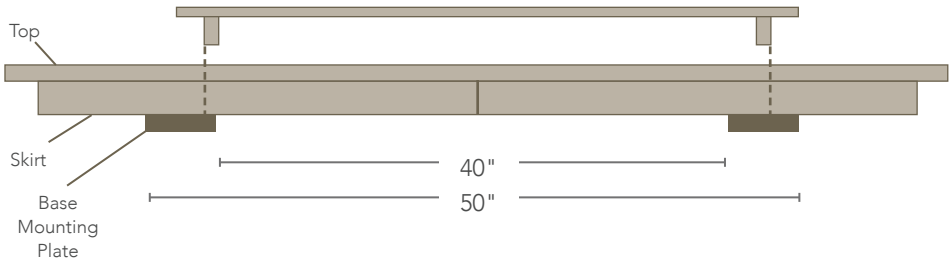


SIDE VIEW OF:

48" x 60" Trestle Table

- Can store up to 4 leaves, 2 with skirt, 2 without

48" Leaf (Skirts come on top of the plates)



SIDE VIEW OF:

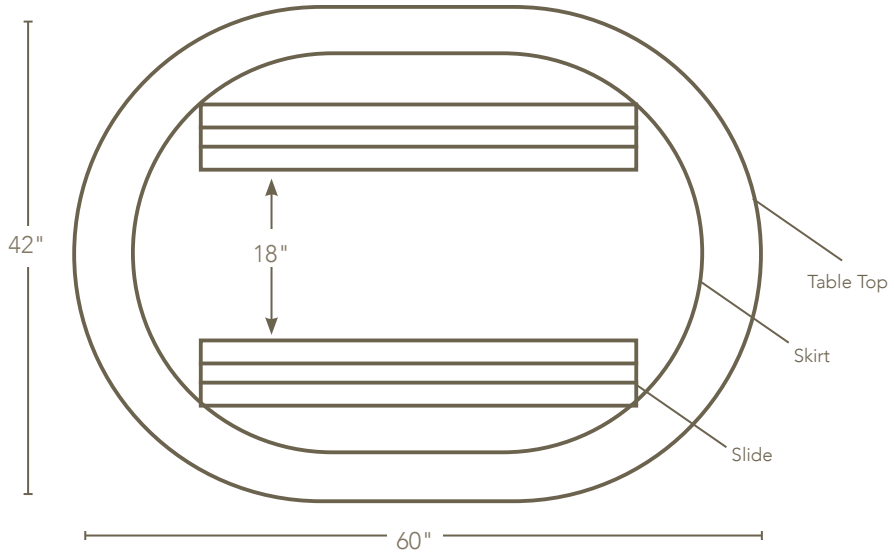
48" x 66" and 48" x 72" Trestle Table

- Can store up to 4 leaves, ALL unskirted

SELF STORE

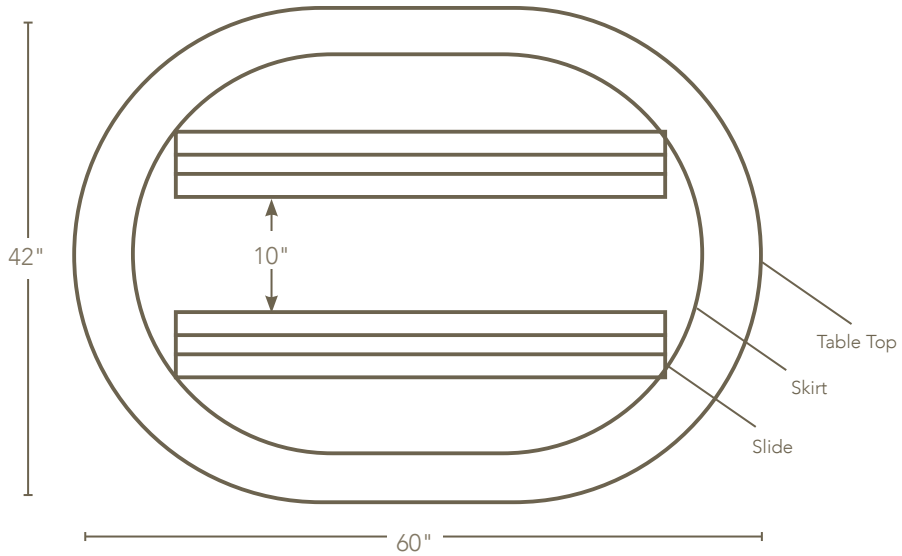
Here are two examples of oval tables that can or cannot self store.

BOTTOM VIEW OF TABLE:



42" x 60" – 3 LEAVES.

Only 1 leaf fits between the slides, so table can only store 2 leaves. 1 leaf on top of the other, 1 with skirt, 1 without.



42" x 60" – 4 LEAVES.

Tables slide is 50" long and the table is only 60" long and with the oval shape it pushes the slides in so that there is only 10" max between the slides, therefore this table CANNOT store any of the 4 leaves.

The drawings above hold true for 42" x 66" 3 and 4 leaf tables as far as the length of the slides, however a 42" x 66" 3 leaf double pedestal table has enough space between the slide to store 2 leaves side by side and 1 on top, 2 with skirts, 1 without.

When a 4 leaf slide is used on a 42" x 66" 4 leaf table the slides have to be moved in because of the oval shape which then will only allow 18" between the slides, therefore this table can only store 2 leaves, 1 with skirt, 1 without. The 2 leaves that cannot store will be skirted.

There are more examples that could be shown here, but we hope our efforts to list the basic "rules" of self storing will help our dealers and their customers to understand why some tables self store leaves and others do not.

LOCKS

Leverlocks: All tables are standard with a leverlock in the center of the table, however ANY table that is ordered with the self store feature will not have a leverlock unless it is special ordered. The lock is removed so that the "catch" part of the lock does not scratch the leaves as they are being put in the self store position.

Leaf Locks: We use a spring lock. These locks are user friendly and adjust well to any movement that will occur naturally with wood products. **Not standard.**

PLEASE NOTE: If self storing and leaf locks are options that your customer is requesting, we highly recommend that they decide which of the 2 options is the most important to them. On certain models of tables, the locks will be right on the plate which takes away space to store 2 leaves on top of each other. As a manufacturer of tables we do not recommend any type of leaf lock, as it is just another piece of hardware that can scratch your beautiful hardwood table.

RUSTIC WOODS

When ordering Rustic Wood tables, please be aware that these tables come standard with filled knots on the table top. We make no guarantees of the size, quantity, or type of knots that a table has. If you want open knots, please specify.

Small Open Knot

Small Knot with Black Epoxy

Large Open Knot

Medium Open Knot

Medium Knot with Black Epoxy

Live Edge Tops will have Filled Knots

ADDISON SINGLE
